ACADEMIC DETAILS

Year	Degree / Exam	Institute	GPA/Marks(%)
2023–Present	B.Tech in Computer Science (AIML)	Graphic Era Hill University, Dehradun	8.1 GPA
2022	C.B.S.E (Class XII)	Colonel's Brightland Public School	90%
2020	C.B.S.E (Class X)	Baluni Public School	93%

PROJECTS

- **TalentForge — Agentic RAG-Based Hiring Intelligence Platform** Dec 2025
Tech Stack: Django, JWT, React, Tailwind CSS, Axios, Vector DB
 - Built a RAG pipeline to extract, embed, and rank resumes against job descriptions for accurate candidate short-listing.
 - Developed an agentic interview scheduling system with autonomous slot recommendation and conflict handling.
 - Automated recruiter workflows, reducing manual screening and coordination effort.
- **DemandPulse — Blinkit Sales Forecasting System** Oct 2025
Tech Stack: MongoDB, PySpark, XGBoost, CatBoost, Flask, Power BI
 - Implemented a scalable Big Data pipeline using MongoDB and PySpark for large-scale retail data processing.
 - Trained and optimized XGBoost and CatBoost models using GridSearchCV for accurate sales forecasting.
 - Visualized demand trends and insights using Power BI to support inventory planning.
- **RAKSHAK — AI-Powered Women Safety System** Feb 2026
Tech Stack: React Native, Django, TensorFlow Lite, MongoDB, Supabase, OpenCV
 - Developed an AI-driven safety system with voice-trigger activation using custom keywords for hands-free emergency alerts.
 - Implemented real-time alert dispatch to nearby users and trusted contacts with live location tracking.
 - Integrated secure audio and video recording with encrypted sharing to authorities for evidence and response.
- **RationGuard — Offline Secure Distribution System** Mar 2026
Tech Stack: Node.js, React Native, React, SQLite, PostgreSQL, SHA-256
 - Designed a hash-chained ledger to prevent tampering, duplication, and fraudulent ration claims.
 - Architected an offline-first system with automatic sync and conflict resolution upon reconnection.
 - Built an admin dashboard for centralized auditing and monitoring.

ACHIEVEMENTS

- **Hack-O-Holic Hackathon — 2nd Runner Up** 2026
Secured 3rd position among 250+ teams.
- **Hack the Winter Hackathon — National Level | Top 10 / 403 Teams** 2025
Awarded **Best Social Impact Project** for a technology-driven public welfare solution.
- **Marithon Hackathon — 5th Position** 2025
Proposed a technical solution later adopted by the associated company.

CERTIFICATIONS

- [Google Cloud Computing Foundation — NPTEL](#)
- [AWS: Introduction to Amazon SageMaker — AWS Training & Certification](#)
- [Data Analytics Virtual Experience Program — Deloitte](#)

SKILLS

Languages	C, C++, Java, Python, JavaScript
Frameworks	TensorFlow, PyTorch, scikit-learn, pandas, NumPy, Matplotlib, Spring Boot, Django, React
Databases	H2 (In-Memory), MySQL (Basic), PostgreSQL, Vector Databases
Dev Tools & Others	Git, GitHub, VS Code, IntelliJ IDEA
